CAREER OBJECTIVE

I'm a Computer Science graduate with a strong interest in Artificial Intelligence (AI) and hands-on experience using Python. I've worked on building AI models, automating tasks, and solving problems using Python. I'm looking for an opportunity to apply my skills in AI, contribute to exciting projects, and continue learning in a dynamic, tech-driven environment.

EDUCATION

BTECH IN COMPUTER SCIENCE AND ENGINEERING	2022 - Present
MOHANDAS COLLEGE OF ENGINEERING AND TECHNOLOGY	

HIGHER SECONDARY EDUCATION	2022
MARTHOMA HIGHER SECONDARY SCHOOL	

SECONDARY EDUCATION	2020
AMRITA VIDYALAYAM PATHANAMTHITTA	

SKILLS

Teamwork ,Time Management, Leadership , Project Management , Effective Communication , Critical Thinking

INTERNSHIP & TRAINING

Artificial Intelligence with Python

- Gained hands-on experience in building AI models using Python, covering core concepts such as search algorithms, problem-solving techniques, and intelligent agents.
- Implemented basic machine learning and AI logic using Python libraries, improving understanding of real-world AI applications.

Artificial Intelligence and machine learning

- Completed an intensive one-week training focused on practical implementation of AI and ML algorithms.
- Developed basic machine learning models and gained exposure to real-time use cases and industry practices.

Data science and python course

- Acquired strong foundations in Python programming for data analysis and data science applications.
- Learned data handling, visualization, and basic statistical analysis using Python libraries.

EXPERIENCE

Vice Captain : Ramanujan house at MCET

- leading house events, assisted in leadership, coordination and student activities

Volunteered at NSS

- coordinated nss activities including environmental, health, & social service events

Volunteered at IEEE

- assisted in organizing technical events workshop , seminar, and other student activities

PROJECTS

MINI PROJECT

- **GYM DATA MANAGEMENT SYSTEM** **Dec 2024- Apr 2025**
Created a secure website to help gym owners manage member records and fees easily, using Firebase for a complete backend solution using HTML, CSS & JavaScript.

FINAL YEAR PROJECT

- **AI - POWERED INTERVIEW TRAINING AND ANALYSIS PLATFORM** **Jun 2025 - Present**
Creating an AI-powered website to help job seekers practice interviews and improve their basic skills through real-time analysis and feedback.
